

BRASAS POLICY - PORTUGUESE FOR FOREIGNERS : ONLINE CLASSES | September 2025

BRASAS METHOD – PORTUGUESE FOR FOREIGNERS

The Portuguese for Foreigners course was created in 2014 and has always aimed at efficient and rapid teaching of Brazilian Portuguese, using the BRASAS methodology developed by George P. Zinovetz and the materials written by Eleonora Zinovetz.

Portuguese is used exclusively from the first day of class. All new teachers undergo our Training Program, where they learn to apply our methodology. BRASAS maintains strict quality control of its teachers, with constant supervision from the pedagogical coordination team and systematic training through workshops and seminars.

Our classes are dynamic and relaxed, always emphasizing structured conversation. Grammar is taught naturally, not as an end in itself, but as a communicative element, ensuring that students speak appropriately and correctly. We use a wide variety of activities and explore everyday situations.

BRASAS MATERIAL

All teaching materials are exclusive, created by BRASAS, and undergo frequent pedagogical review and constant updates. The books and support materials will be available on a platform accessed through a username and password, valid only during the course. Access does not permit reproduction of the content by printing or exporting in any format (such as PDF or Word), nor does it allow access after the course ends.

The teaching material adopted by BRASAS is essential for students to follow classes adequately and is protected under Copyright Law No. 9.610/98.

BRASAS ONLINE

To ensure distance learning with the same quality and methodology as the face-to-face course, BRASAS ONLINE was developed. It consists of videoconference classes, videos, slides, reading materials, and exercises.

BRASAS AUDIO TRACKS

The audio tracks are an integral part of our method, which enables:

- Individualized learning.
- Development of comprehension, training students to understand different voices, accents, and regional variations.
- Improvement of pronunciation and intonation through individual repetition, at increasing speeds, with natural contractions and omissions typical of spoken Portuguese.
- Repetition of selected passages as often as necessary.

The audios were recorded by native Brazilian Portuguese speakers, incorporating the natural rhythm of the language and reflecting everyday situations.

It is recommended to listen to the audios as often as possible to increase students' fluency and confidence. Audios can be accessed within the digital books.
